

Cosmic Rays and the Heliospheric Plasma Environment

H. Fichtner, K. Scherer, B. Heber, M.S. Potgieter

Ruhr-Universität Bochum, Germany

Christian-Albrechts-Universität zu Kiel, Germany

North-West University, Potchefstroom, South Africa

Bochum, 12. -16. September 2011

Workshop support by...

Deutsche Forschungsgemeinschaft (DFG)

Bundesministerium für Bildung und Forschung (BMBF)

Research Department Plasma

DFG Research Unit FOR 1048

Arbeitsgemeinschaft Extraterrestrische Forschung (AEF)

Local logistics:

- your badge = BOGESTRA tickets for the U35
- MENSA tickets in your badge
- WLAN in the room: accounts, passwords & agreements
- financial support: cash payments Tue & Wed during morning coffee break, please bring along your **passport**

Social Events:

- A little 'Icebreaker' tonight in front of the lecture hall
- Excursion on Wednesday afternoon: bus transport at 14:30
- Dinner in Hattingen: bus transport, return to main station around 21:30

The Science:

- Timely: Voyagers, IBEX, new models, new ideas...

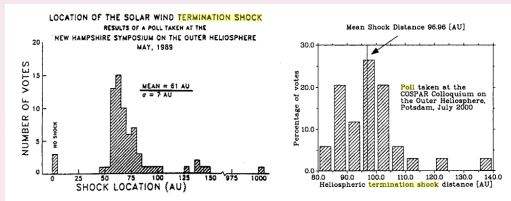

The Science:

- Timely: Voyagers, IBEX, new models, new ideas...
- Tradition I: series of workshops since 2001, alternating between Germany & South Africa

The Science:

- Timely: Voyagers, IBEX, new models, new ideas...
- Tradition I: series of workshops since 2001, alternating between Germany & South Africa
- Tradition II: series of polls 😊:

Until 2004: Where is the termination shock?

New Hampshire 1989

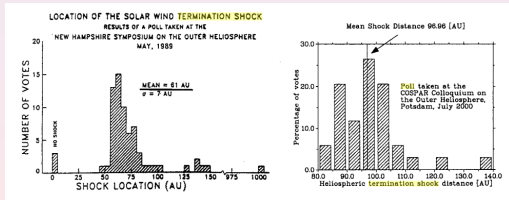

Potsdam 2000

To check these and other (more serious) predictions made during this second Colloquium on the Outer Heliosphere, we suggest to organize a third one in the year 2011, i.e. again another solar activity cycle later.
